Love Your Pet Inside and Out™

## Love Your Pet Inside and Out™.

We are passionate about dog's health so we've made it our mission to develop the most nutritious, high quality dog treats possible. We only use high end human grade consumables, no by-products, preservatives or other unnatural ingredients.

K-9 Kookies products use all natural ingredient combinations that are not only good tasting but have a healthy benefit as well. Many of our treats are created to increase the health and well being of our K-9 friends from reducing bad breath, to lowering anxiety to alleviating arthritic pain and sore joints. Some even help to reduce fleas.

K-9 Kookie dog treats are produced in the USA under USDA and FDA guidelines. All K-9 Kookie dog treats go through comprehensive lab testing in the United States to ensure they are completely safe. To assure customers of quality and value of every K-9 Kookie dog treat, each product is tested by the AAFCO for minimum guaranteed analysis nutritional content for crude fat, crude protein, crude fiber and moisture.

We hope that you, and your K-9 friend, will enjoy the all natural treats as much as we do making them. Please feel free to contact us to order your favorite flavors. Check out our website for complete nutrition information and to order more K-9 Kookies.

These kookies are intended as a snack and reward and are not formulated to serve as a meal. Break into smaller pieces for smaller dogs. Please do not over feed your dog.

## Peanut Buddies

Most dogs jump for joy when offered a snack that contains peanut butter. Let's face it; dogs are simply nuts about nuts. But, when it comes down to it, is peanut butter good for dogs?

Peanut butter's high protein content makes it a preferred treat for owners whose dog is not on a restricted calorie diet and the oil and fat content can add luster to the dog's coat. Too much peanut butter can make Fido chubby – and no one wants that.

## Gin-gerrr

Even dogs can get the nervous jitters. Thunderstorms, car rides, and vet visits can really do a number on your dog's system. If you are looking for a snack that is gentle on your dog's stomach, the unique blend of tummy tamers found in our Gin-gerrr treats may be just what the doctor ordered!

Ginger contains properties that are thought to soothe sensitive systems by easing digestive problems and contributing to your dog's overall gastrointestinal health.

## Minty Gar-Lick

Garlic, Mint and Parsley seems like an odd combination, are these ingredients beneficial for my dog? The flavors of parsley and mint when combined, help to freshen your dog's breath.

Parsley is soothing and can help to relieve arthritic pain in older dogs.

Mint not only helps to freshen your dog's breath, but may help alleviate nausea by soothing the stomach.

Garlic, contains antiseptic properties. The bonus garlic property for dogs is that it will help to prevent Fleas once it builds up slowly in their system.

Moisture	16%

## Pawmpkin Rice

It may not be Halloween, but we have created a healthy addition to K-9 Kookies that is sure to be a treat all year long. Pawmpkin Rice All Natural Treats.

Pumpkins are high in essential fatty acids and antioxidants (good for overall healthy skin and fur), and the oils in pumpkins' flesh and seeds are believed to support urinary health.

If you are looking to take a few pounds off of your pooch try reducing a portion of their food and replace it with the same portion of pumpkin.
